RECOMMENDED CITATION

Mohammed loot (2025). *SMART HOUSE*. Encyclopedia of psychology. Retrieved from <https://encyclopedia.arabpsychology.com/?p=13815>

a house that has been designed with a number of time saving, remote control devices. Lights can be turned off when a person leaves a room, doors unlock when a smoke alarm sounds, heating and cooling devices operating from remote control.

SMART HOUSE: "A smart house can be designed to help elderly people and those with disabilities lead a more normal life."
